Your Device Lights and Sounds

To provide you with a richer visual and audio experience, the device will display lights and make sounds. The picture below shows where all the buttons and lights are located on the device and the table below shows what causes these lights and sounds to occur.

When this happens...	Lights	Sounds
Power on the device	Green light will flash 3 times	2 short beeps
Power off the device	Red light will flash twice	Long beep
Connected to mobile network	Left blue light on for 4 seconds	Long beep
Any key is pressed	Green light turns on for 3 seconds	
SOS key pressed for 2 seconds	Both blue lights flash twice	Long beep
Left or Right key pressed for 2 seconds	Corresponding blue light flashes twice	Long beep
Low Battery	Red light flashing	
Charging	Red light slowly flashing	
Plugged in and fully charged	Red light steady	
Cellular network and GPS not connected	Left and right blue lights flash slowly	Short beep
No cellular network connection, GPS connected reached	Right blue light turns on for 4 seconds	Short beep
Cellular network and GPS connection reached	Left blue light on for 4 seconds	Short beep
